Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt of applicant's amendment filed 12/23/2004 is acknowledged. Claims 2-6,8-14,17-19,21-24,26 and 30 are pending.

Response to Arguments

Applicant's arguments with respect to claims 2-6,21 and 24 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 2-6,21 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Regarding claim 24, the claimed subject matter of "punctate fastening the two sheet-metal walls to one another at a plurality of connecting points...meshing the wall by material deformation at each connection point with compression molded" is not supported by the original disclosure. It appears in the original disclosure that the two sheets was formed with indentations then compression molded connections formed inside the indentations. It is clearly that the applicant does not disclose in the original disclosure the step of punctuate fastening the two sheet metal walls to one another at a plurality of connecting points before the step of

Art Unit: 3743

forming compression molded connections, which is claimed in claim 24. Furthermore, the step of forming indentations is not the step of punctate fastening at a plurality of connecting points.

In view of the issue above, the examiner has not been able to determine whether claims 2-6,21 and 24 are new or inventive.

Allowable Subject Matter

Claims 8-14,17-19,22-23,26 and 30 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

B. R. Ward Jr. (US 3,425,113) discloses a method of making composite sheet structure with internal passage.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
